Battle at Milwaukee.

SPLENDID, SPECTACLE IN THE BAY.

Sixty Vessels and a Morter Pleet Attack 3,000 Infantrymen and Aitillerymen on Shore and Are Repulsed-Seventy Thoussand Rounds of Musketry and 40,000 Pounds of Fireworks Exploded.

MILWAUKEE, Aug. 20.-The great feature of the Grand Army encampment was the sham naval battle, which took place Thursday night, and was witnessed by 150,000 people. The battle was a spleadid spectacle, being p ricepated in by about sixty vessels, besides a stationary mortar fleet, and by about 3,000 infantrymen and artillerymen, including seven companies of the Fourth battalion of Wisconsin, the Chicago zonaves, Pattery D, of Chicago, Milwaukee First Light battery, and several hundred Sons of Veterans. There were fired 70,000 rounds of musketry, 3,000 shells, 4,500 rockets, and 20,000 pounds of fireworks were exploded. The plan of the battle was an attack by a bostile fleet and repulse by the shore batteries, supported by the infantry. The line-of-battle free was led by the United States man-of-war Michigan and revenue cutters Andy Johnson and

The Battle Begins.

There was a sudden flight of rockets skywards. On the instant lights beamed cut on all the vessels in the harbor. Then a gun boomed; another answered. And in a minute cannons were bluzing all along the line, both from the shore and the vessels. The smoke rose up and formed a mist through which could be seen the constant flashes. Milwaukee was being attacked by a first. Shells shot up into the air and exploded, sending out showers of sparks and colored balk. Way off in the distance the Michigan could be distinctly seen and Iron her sides belehed fire. Nearer were the Andy John-son and the Fessenden both doing heroin work. A flect of mortars supported them

On shore were batteries of cannon and nortars, supported by a baltation of in-fantry. The firing increased in rapidity and the smoke became more dense, until there was nothing but a steady roar with an there was nothing but a steady roar with an occasional gleam of light from the guns. Then came a lail. The marines were trying to capture the share latteries. The fleet kept up a fire, but the latteries were silent until the boats were within easy range. There was a sudden voiley, and after it came the rattle of much city. It sounded like pills rattled in a lexi and the flackes looked through the medical like fireflag. through the smoke like fireflies. The gatting guas on the boots responded to this. The attacking party was finally repulsed, and the cannonading began again.

End of the Battle. Suddenly it slackened, and through the gloom could be seen a little ball of fire. It gradually increased in size until the heavens were illuminated, and it was son that a ship was on fire. The flames licked up along the masts and blazed up autility vrything in the vicinity was visible. The enemy was retreating. HE BROUGHT DOWN THE HOUSE. Tanner's Bemarks Concerning an Amend-

ment to the Pension Laws.

Milwaukee, Wis., Aug. 90,—The resolution favoring an amendment to the pension laws by which soldiers' widows should continue to receive pensions in the event of their re-marriage, was rejected in the national encampmet just before the adjourn-Thursday afternoon, Strangely enough, no reference to the matter appeared in the report of the official stenographer, nor is the resolution among the documents of the day on file. Corporal Tanner was one of the speakers in support of the resolution, and he is credited with using in the course of his speech the following sentence: "I want to say that to fail to adopt some such rule is to place a premium upon immorality. There is not a week that there are not a great many cases that come to my knowledge where women have made lambshins of their

virtue to retain a pension."

A number of delegates who were spoken to denied that the commissioner of pensions had expressed himself in these literal terms although they admitted that he made rather

although they admitted that he made rather a broad remark that in the language of an Ohio delegate, "brought down the bouse and made those present shake their sales."

The Third Day's Session
The encampment resumed its session
Friday morning. An adverse report was made by the committee on resolutions on the resolution submitted by Gen. McMahon, of New York, dictaring against the recent decision that a dishonorable discharge from the army is no bur to the securing of a pen-son. Gen. Farebild's resolution in favor of making the robel lines at Gettysburg was last upon the table. Other resolutions hand metal-these asking the government to furnish each post with a copy of the regimental record now in course of publication; to held future encampments at such times as will be convenient to pensioners, after they have received their pension money; and requesting the government to furnish each exso her-phys can with a copy of the medical and surgical m-tory of the war.

The Pension Question. The pension question was again taken up and delected as ioneth. Finally the follow-

ent debeted as ich, the Finally the follow-ing resolution was a ignted:

That the action of the twenty-second ma-tional encampanent upon the matter of pen-sions is hereby readitized and that the pen-sion committee be and is a reby instructed to use all possible means to secure legislation in accordance with the resolutions of that on-campment.

By this action the encampment inderses

sion upon a resolution to promote legislation giving to all imputes of soldiers' homes who sire to live out-ide of such homes a pension of \$12 monthly. It was vigorously opposed on the ground that if the disability bill is Sailors Injured at the Naval passed at the next session of congress, the veterans would get the sum in question any-how, whether they lived in the home or out

> Past Department Commanders. Past Department Commanders.
> Majority and minerity reports were submitted on the proposition of the department of Massachusetts disfranchising past department commanders and allowing them hereafter simply seats upon the floor of the encampment as visitors. The effect of this would have been to largely reduce the votage of teams of future leading. The resoluing strength of future bodies. The resolution was finally defeated by a vote of 187 to 28. An adverse report was presented and approved upon the proposition to give the cidest Sons of Vet rans a qualified membership in the order. It was decided that the quorum of posts with a membership of

less than fifty should be five.

Adjourned Sine Die.
The committee reported favorably upon the resolution allowing all comrades who have been dropped from the roll to be reinstated upon the payment of the leach dues. A touching letter of thanks from Mrs. Shor-idan relating to the juscition in the last report of a memorial sheet and picture of her deceased husband was read by Gen. Warner. The council of admin's ration was next appointed. In a few well chosen words Gen. Warner then expressed his appreciation of the confidence and support which had been extended him during his term of office and introduced his success r. Gen. Alger. The new commander-in-cinef, with the subordinate officers, were formally installed with the usual corem mics. The convention then adjourned sine day, and with three hearty cheers the delegates titel out of the hall,

Tive Children Bitten by a Mad Dog,

CINCINNATI, Aug. 50. -A remarkable case was noted here Thursday. George Runyan, rich farmer near Lyachburg, arrived in town with his five children, the youngest aged 18 months, the eldest 10 years. All had been bitten by a mail dog. The children were playing in the yard when the animal attacked the babe in the arms of a girl of \$ and bit both. The oldest boy, in attempting to drive the brute off, was bitten in the leg-The two ciber children were bitten, one on the hand, the other in the foot, before the dog was killed. Mr. Rumyan is taking the children to Cleves, Obio, to have the famous madstone there tried on them. Only the baby shows signs of illness.

Victoria, B. C., Aug. 39.—The schooner Pathfinder arrived from Behring sea Thursday night. Capt. Clary reports he was boarded by the revenue cutter Rush in Belining sea July 29. Lieut. Tuttle took 845 pounds of skins and all the guns and annunnition from the Pathfinder and placed the quartermaster of the Rush on board, with instructions to take the schooner to Sitka. After the Rush left the Pathfinder headed for Victoria, despite the protest of the prize crew, and arrived here after a rough trip.

Killed While Stealing a Ride.

Easton, Pa , Aug. 30.-Thursday night seven boys jumped on the rear of a pushing engine on the Lehigh and Susquebanna rond to steal a ride. The engine, which was running backwards, collided with two cars that had been pushed off a switch on to the main track. James Callery, aged 16, was instantly killed; Charles Wright, aged 15, had an arm cut off, and E. R. Wright, aged 17, and a leg broken. All the others were badly bruised. Two cars and the engine were wrecked.

Another One-Man Prize Crew.

SAN FRANCISCO, Aug. 30.—A letter by the steamer St. Paul, which arrived from Ounalaska Tuesday night, from an officer on board the cutter Rush says that the latter, on Aug 6, captured the British schooner Lilly, of Vancouver, while taking seals in Behring sea. Three hundred skins were found on board the Lilly, which were seized and transferred to the Rush. A prizz crew of one man was put on the schooner, with orders to take her to Sitka.

Our Meat Market was established in 1855—thirty-four years ago, on the corner of South Main and Wood streets, where we are still located. The above fact proves conclusively that we have attained marked success in catering to the wants of the public, and should be accepted as a sufficient gnarantee for the future. We can as before, supply you with the best of everything in our line and make the concentration. our line, and only ask for a continuance of the very liberal patronage heretofore be-stowed, being satisfied that we may MEAT

A GIGANTIC SCHEME, that Somehow it Didn't Work—People Arc

Not Freight. The assignment of teachers to the public schools was not completed until a day or two ago. As finally made, it stands as follows:

Some time ago a well known farmer residing in a western township of Macon county conceived a brilliant idea and lost no county conceived a brilliant idea and county conceived a brilliant idea and

time in putting it into execution. He wanted to go to Washington territory to see the country and wanted to go at a rate much ower than be could secure, He came to the city and asked the repre-

entative of one of the railroads what the company would charter a freight car to the territory and return for. He was fold tha t would cost about \$300. That was just what the farmer wanted, and he returned home happy.

He went to work at once to organize

ompany of 30 of his friends to occupy the freight car on the trip to Tacoma. were to pay \$10 apiece, making \$500 for the party, and signed contracts to that effect, They intended to put a stove in the car. stock it with provisions and live on the faof the land on their trip.

When all the arrangements were complete the farmer went to the tailmad on a and told him he was ready to take that car is Washington territory.

The railroad man, who had heard of th farmer's gigantic preparations to cut rates west, looked at him a moment and then heartlessly blasted the schemer's hope by quietly remarking: "We don't carry passengers in freight

cars." The dejected farmer went hence and at once had two cances of the ellxir of life injected into his foot so he could I isk himself

harder. His western idyl has turned into an Milmine's New I. O. O. F. Hall.

ELECTRO-VAPOR BATHS.

These baths are very popular in Chicago and the larger cities. The Electric-Vapor and Hot Air Baths are adapted to the treatment of various Chronic Diseases. They are very beneficial in all diseases peculiar to women. Also in Chronic Rheimatism, Excessive Nervousness, and in all diseases of the stomach, layer, iddacys, skin, lungs and urinary organs. Patients that are unable from Heart Disease or other causes to take water baths can take those baths without darrer and with meat hought. We consider water baths can take these baths without danger and with great benefit. We consider these baths FAR SUPERIOR to all others.

We desire to say to all who suffer from any chronic or nervous disease, or any disease of the eye or ear, or any chronic disease of any kind, whether requiring medical, surgleal or electrical treatment, that we are fully prepared to treat it according to the latest approved methods known to the profession. Contest. The manual-of-arms drill of the Decatus a pleasing spectacle. The large hall was d the floor space clear. The chairs were occupied by the parents, sisters, and sweethearts of the Zouaves, and as the spectators took as lively an interest in the pro ceedings as did the young soldiers, and it is supposed that he is harmless, but they were just as wide awake and earnest there is no certainty about that. as 28 very lively and active boys could possibly be, it can be readily seen that the seene was a very animated one.

The prize offered was a silver pin in the form of a miniature rille, an exact imitation of the rifle carried by the Zonaves. Its cost was about \$8. The judges were Lieut. Walter Colladay and Sergt. Frank Cassel, both of the Decatur Guards, and both critical experts in all that pertains to military

It was about 15 minutes after 8, and the spectators were all in their places, when the company formed in line and marched into the hall, coming to a halt with the company standing close to the north and west wall. The judges sat at the table near the center of the room. As it came each Zonaves turn to execute the manual, he left the ranks, marched before the judges, halted, saluted, and then went through the manual without orders, making 47 motions, saluting and returning. The time required for each of the 28 men who took part, was about

The drilling of the boys was wonderful. They gave an earne-tuess to it that could not have been equalled by a regular army soldier. The whole contest was a matter of great moment to those young soldiers, any of whom have been drilling con stantly for four or five weeks. Applause was frequent, and when one made a more striking appearance than usual, he was greeted by a hand clapping that would have made proud the most experienced old veterun in the ranks of a crack military com-
